■ METAL SHEETS:

Metal Sheets are flat pieces of metal that can be used for any residential or commercial project. Flat sheets are available in various sizes: 3ft x 8ft, 3ft x 10ft, 4ft x 8ft, 4ft x 10ft and materials: diamond plate, stainless steel, brushed stainless steel, galvanized steel, aluminum, mill finish aluminum, baked enamel, copper, evergreen copper, lead coated copper, freedom grey, & kynar painted sheets.

Flat sheets can be used by fabricators, contractors, roofers and home owners. The use for them is limitless. Some commonly used purposes are to cover or repair walls, build counter tops, table tops, and customization for special projects.

■ SCRAP METAL:

Scrap Metals are available in a variety of sizes and stocks. Please refer to www.bbsheetmetal.com for the latest materials and sizes available. If you don't see what you want, feel free to contact one of our sales representatives for more details at 718.433.2501.

We can fabricate any custom shapes using scrap metal fall off strips that we have on hand. This allows us to give our customers high quality materials at rock bottom prices. Whether you are an artist or contractor use scrap metal for your next project.

Looking for other flat metal sheets or perforated sheets?
