Americraft  
**GUTTER**

B&B SHEET METAL continues it's unsurpassed commitment to high quality metal fabrication by introducing ...

# The Americraft Gutter System

This beautifully crafted gutter system is manufactured from the finest copper available. Our high grade hangers are double the weight of copper per pound of any competitor. The superior strength, flexibility and function easily outperform any other gutter system. In addition to our full line of clip on accessories the Americraft Gutter System is available with solderless clamping joints which eliminate the hassle of soldering end caps and gutter connections. The unique fold over design is specifically crafted for an effortless installation.

Our extensive product line is the best in the industry. We stock all the necessary supplies for any residential or commercial project. Our customers are guaranteed the highest quality and value in every order. Avoid costly mistakes and deal direct. Call B&B Sheet Metal today!
